EDUCATION

Brown University

Sc.B. Computer Science MAY 2017

Algorithms, Data Structures
Computer Systems, Artificial Intelligence
User Interfaces, HCI Research

Rhode Island School of Design

Selected Coursework

Typography, Interaction Design

SKILLS

Front-end Engineering
Java, Python, C, Pyret
Functional Programming

Product and Interaction Design
Sketch, Adobe Creative Suite
Origami, Framer

EXPERIENCE

Facebook *Product Design Intern*

MENLO PARK, CA • SUMMER 2015

Reimagined mobile payments across Facebook products and platforms. Delivered research, prototypes, visual and interaction design.

KAYAK *Design Engineering Intern*

WEST CONCORD, MA • SUMMER 2014

Re-designed and developed My Trips, a travel itinerary planner. Worked with product managers, UI engineers, and designers to improve user experience.

Brown Computer Science *Teaching Assistant*

PROVIDENCE, RI • SPRING 2015

TA'd CS22 — Discrete Structures and Probability. Assisted students with material, graded assignments, and built the course website.

Brown Graphics Lab *Research Assistant*

PROVIDENCE, RI • SPRING 2014

Developed Touch Art Gallery, a webapp that lets museums display large artworks through touch screen devices. Research under Professor Andy van Dam.

LEADERSHIP

Hack@Brown *Co-Director*

Led team of 35 students in organizing Brown's annual student hackathon. Expanded Hack@Brown's work into workshops, educational resources, campus data APIs, and startups.

Web Summit Student Scholar 2014

One of hundred international students invited to the Web Summit Conference in Dublin, Ireland.
